Community Homelessness Report

(COMMUNITY NAME)

(Fiscal year)

TEMPLATE FOR COMMUNITIES

SECTION 1: COMMUNITY CONTEXT
Overview
1.1   Highlight any efforts and/or issues related to the work that your community has done to **prevent and/or reduce homelessness** over the last two years.
The community is implementing a coordinated access system (CAS). Elements of CAS are in practice including access to the By Name List (BNL), a common assessment tool, prioritization, and matching service provider resources to clients on BNL. The Community Entity (CE) tracks progress in ending homelessness in the BNL scorecard. Issues encountered relate to the architecture of the HIFIS platform. The BNL module in HIFIS cannot accommodate the size of the database in Halifax, which is over 33,000 records. As such, the CE is in the process of a work-around to have a function BNL in HIFIS and to have functioning CAS filters in place.
1.2   Highlight efforts and/or issues related to the work of **increasing access to safe, adequate housing** in your community over the last two years.
Reaching Home (RH) investments, in the Designated Community of Halifax, include Intensive Case Manager and Housing Support Worker staff accompanied by client support funding. These positions and support funding are 'housed' in various service provider. 6 units were added to the invenntory of affordable housing that is to be filled through the CAS. The Department of Communities Services invests in Housing Support Worker staff and these positions are 'housed' in various service provider agencies in Halifax.

1.3 What impact has COVID-19 had on your community's progress with designing and implementing Coordinated Access and a Homelessness Management Information System (HMIS)?
There is no shared HIFIS database in Halifax. While the challenge is that the HIFIS database is too large to accommodate the BNL module in HIFIS, Nnot being able create a functional sared data has delayed working through the process of fully implementing CAS.   the impact of COVID19 has been huge, there was the diversion of energies to hotels, reducing capacity in shelters, use of RH funds for COVID19 response.

Colaboration between Indigenous and Non-Indigenous Organizations	
1.4 a) With respect to the design and implementation of Coordinated Access and a Homelessness Management Information System (HMIS), has there been collaboration between local Indigenous and non-Indigenous organizations and, where applicable, the Indigenous Community Advisory Board (CAB)?	No
b) Describe how this collaboration will be further pursued over the coming year.	

Halifax has always had Indigenous representation on its CAB and on the working group of community service providers that began the design and implementation of CAS in 2017.

1.5	a) With respect to the completion of the Community Homelessness Report (CHR), was there collaboration between local Indigenous and non-Indigenous organizations and, where applicable, the Indigenous CAB?	No

	b) Describe the efforts that were taken to collaborate and specific plans to ensure it occurs during next year's CHR process.	

There are sub-project investments with an Indigenous service provider. These investments include, ICM and HSW staff and client supports.

There is Indigenous representation on the Halifax CAB.

1.6	a) Does your community have a separate Indigenous CAB?	Yes
	b) Was the CHR approved by the Indigenous CAB?	No
	c) Please explain how engagement was undertaken.	

There is an indigenous Cab for the Province of Novs Scotia but not a separate Indigenous CAB for the Designated Community of Halifax. The Indigneous commmunity entity Executive Director is a member of the Halifax CAB.

SUMMARY COMMENT
2.19 Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols as approved by the governance group(s) are being implemented across the system as intended to achieve desired results.

SECTION 4: COMMUNITY-LEVEL OUTCOMES	
Your answers in Section 3 indicate that your community currently has a unique identifier list. This will be called the List in this section.	
Step 1. Confirm List Comprehensiveness	
4.1 Is the List updated on a regular basis, monthly at minimum?	
4.2 Does the List only currently include information about people experiencing chronic homelessness?	
4.3 Does the List include individuals and families served through outreach to all locations (hotspots) across the community where people are living unsheltered (i.e., staying in places not meant for human habitation)?	
4.4 Does the List include individuals and families across the community staying in all shelters for people experiencing homelessness (e.g., emergency shelters, hostels, hotel/motel stays paid for by a service provider)?	
4.5 Does the List include individuals and families across the community staying in transitional housing?	
4.6 Does the List include individuals experiencing homelessness across the community staying in institutions (e.g., jail or hospital)? (Note that if the stay exceeds your inactivity policy, their state on the List changes to inactive.)	
4.7 Does the List include individuals and families across the community who are experiencing hidden homelessness?	
4.8 Is the total number of people on the List served through outreach and in shelters as of March 31, 2021, **higher** than the number of people who were *unsheltered* or *in shelter* according to your most recent Point-in-Time (PiT) Count?	
4.9 Consider your answers to Questions 4.1 to 4.8. In your opinion, does your List include all of the individuals and families experiencing homelessness in your community, as much as is possible right now?	

| Step 2. Define the Data Set	
4.10 Did you have the List in place on or before April 1, 2019?	
4.11 Did you have the List in place on or before April 1, 2020?	

Step 3. Report the Data
