**BNL Summary Table - Highlights on Active Homelessness in HRM**

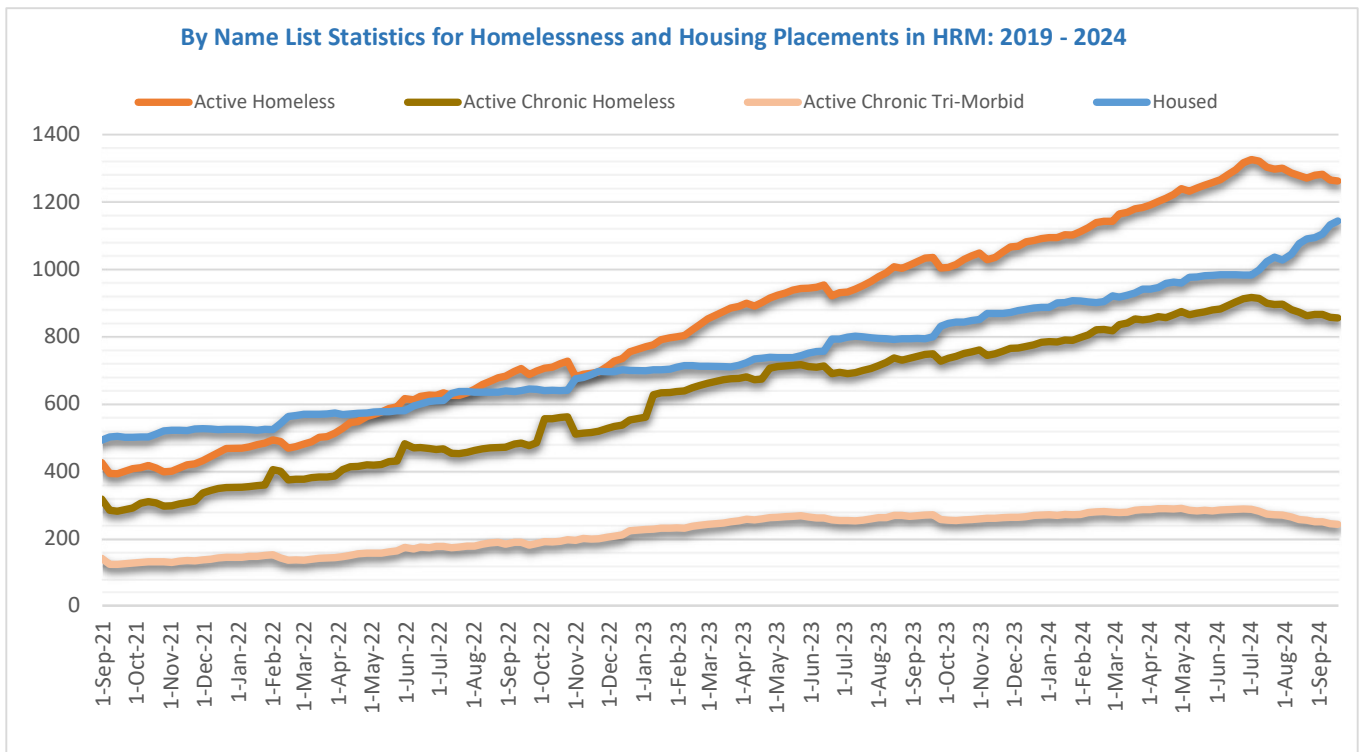

**Week of 18-Sep-24**

**Highlights of the Week of September 18, 2024**

	Current Week	Previous Week	Changes: +
BNL Total	2863	2846	17
Active Homeless	1261	1264	-3
Active Chronic Homeless	855	857	-2
Active Homeless Tri/Co Morbid	242	244	-2

In the past week, 17 new individuals were added to the BNL for the first time and 4 individuals returned to homelessness. Despite this jump, the active homeless number has dropped by 3 because 11 individuals and/or families were reported to have become housed and 9 individuals moved to inactive. With additional housing opportunities expected to open in the coming weeks there is potential to see the active number continue to drop.

Note: +/positive numbers identify that more people entered homelessness since the last report and -/negative numbers identify that fewer people are experiencing homelessness (become "inactive" or "housed")

**Note:** The impact of few affordable housing options - with only 2.4% of the rental options affordable to households in the lowest 20% of income distribution, lowest vacancy rate of 1% and higher levels of rental arrears - correlates with marked increases to the number of households experiencing homelessness in 2023 and onward.
